TRUCKFUELNET
On-road refuelling... and a lot more!

TFN On-road Refuel Management – true convenience in real-time refuelling

Introducing the **TFN On-road Refuel Management** software program, the most comprehensive **real-time**, **on-road** refuelling **management** solution in the market!

- Manage and authorise – in **real-time** – where, when, who and how much a truck can **refuel** from the **convenience** of your computer or customer **app**.
- Includes **immediate reporting** on all transactions.
- Fixed **monthly fee** based on your **fleet size**.

An all-in-one solution

The solution provides all the **functionality** you need to **manage** your fleet effectively:

- Schedule **on-road refuelling** orders and quick **SMS fuel orders**.
- Select the **suppliers** where trucks may refuel and **set the rules** for refuelling.
- Manage your **sub-contractor** refuelling, **account status** and **credit limits**.
- Manage and record **home-base refuelling**.
- **Add** trucks, **authorise** transactions and manage truck refuelling **rules** from the comfort of your customer **dashboard**.
- Immediate **real-time reporting** on all transactions.
- Detailed account and transaction **reporting** on all transactions per **supply site**, **truck** and **driver**.
- The TFN Customer **mobile app** offers the same functionality on the go.

Additional benefits

- Our **24/7 call centre** will assist with any refuelling **query** or customer service **issue**.
- We are integrated with **third party** fuel tank management systems.
- **Road Wallet** driver management functionality is included.
- A fixed **monthly fee** based on your **fleet size**.

One solution for all your fleet refuelling needs
